# LOOK BOOK

## The Lookbook

Jewellery may be made from a wide range of materials. Gemstones and similar materials such as amber and coral, precious metals, beads, and shells have been widely used, and enamel has often been important. In most cultures jewellery can be understood as a status symbol, for its material properties, its patterns, or for meaningful symbols.

# PRODUCT DESIGNING

The screenshot shows a web-based product design tool. At the top, there are tabs for 'Product info' and 'Size chart'. Below these are several menu items: 'Choose Product', 'Add Text', 'Add Art', 'Upload image', 'Name & Number', 'My Design', and 'Add QRcode'. A 'Layers' dropdown is at the bottom left. The central area displays a black t-shirt with a dashed white box indicating the design area. To the right of the t-shirt is a vertical toolbar with icons for undo, redo, zoom, pan, and other editing functions. At the top right, there are buttons for 'Save', 'View', 'Zoom', 'Share', 'Select All', and 'English'. On the right side, a 'Product Options' panel is visible, containing 'Choose Product Color' (with white, black, and yellow swatches), 'Size' (with S (+\$2), M, L, XL, XXL, and XXXL options), 'Color used', 'Screen size', a price of '\$601.00', and an 'Average Per: 601.00 / Item' label.

*Rs. 5000 One time setup*

*Rs. 1500 per month. For Enterprise only*
